FEEDING DIRECTIONS

For use as a general purpose all natural protein ration for growing and mature beef cattle to be fed with forage according to animal bodyweight, forage quality and desired performance. Adequate roughage must be available at all times.

FEATURES AND BENEFITS

- Contains hi-energy ingredients such as corn gluten pellets, soyhull pellets, and rolled corn so it takes less feed to keep animals in the desired body condition.
- Flexible product – this can be fed to most ruminant animals as a maintenance feed or finisher rations. Can be used as a trop dress or offered free choice.
- A natural protein commodity blend to be fed with forage (pasture, hay, or silage). Cattle will voluntarily consume more forage when quality is higher and will require less supplemental feed.

Our goal is to provide safe, high-quality, consistent nutrition for livestock and poultry in a way that keeps farming preserved and family thriving.

FAMILY

We believe in the age old tradition of family farming.

PROFESSIONALS

We are professionals that believe in the importance to maintain and advocate for the advancement of the agriculture industry.

TRUST

We make feed that farmers not only trust but feel good about using on their farms.

DEDICATION

We are a community of family farmers dedicated to the prosperity of farmers, and the health of their animals.

NUTRITION

We use wholesome ingredients in our feed to offer the most complete and balanced nutrition.
